

REPORT ANALYZE

Strategic placement and unique positioning of your home's best features are critical in securing the right audience to not only preview your home online, but to take the next step in their home search. To increase exposure for your home and ultimately uncover the right buyer, your home information and photos will be distributed to the most significant media companies and real estate-focused websites in the world.

You will be provided with a property report that includes view and inquiry statistics for each partner site to effectively illustrate the activity a property receives online, allowing you to measure and review results. In 2016, there were over 40,000 properties listed on the Sotheby's International Realty® website, with an astounding 45 million detailed property viewings.
